

How to find Goodluck Mine

Middleton Wood, Via Gellia, Middleton
by Wirksworth, Derbyshire

The mine is located on the Via Gellia (A5012) - see maps below. There is a lay-by which can be identified by a small footbridge next to it leading across stream with footpath up hill. When approaching from Cromford look out for cable car on right just before the bend, lay-by left. From other direction the lay-by is on the right a short distance after B5023 junction.

Please park tidily to maximise space—this is at a premium. Take care on bend, watch for fast traffic.

Stout footwear necessary, no need for Wellingtons. Helmets and lights will be provided. Over 18s only. Follow footpath up hill through woods and at junction near top turn sharp right. You will note spoil heap on way up hill on your right, which is a good marker!

www.goodluckmine.org for more info. If in difficulty call 07808326469.
